

Title 15 - Mississippi Department of Health

Part III – Office of Health Protection

Subpart 55 – Child Care Facilities Licensure

CHAPTER 01 REGULATIONS GOVERNING LICENSURE OF CHILD CARE FACILITIES

100 GENERAL

100.01 **Legal Authority** The "Mississippi Child Care Licensing Law," Section 43-20-1 et. seq. of the Mississippi Code of 1972 provides the legal authority under which the Mississippi Department of Health prescribes minimum regulations for child care facilities defined under the law.

100.02 Purpose

1. The purpose of these regulations is to protect and promote the health and safety of children in this state by providing for the licensing of child care facilities as defined herein so as to assure that certain minimum standards are maintained in such facilities. This policy is predicated upon the fact that a child is not capable of protecting himself, and when his parents for any reason have relinquished his care to others, there arises the probability of exposure of that child to certain risks to his health and safety which require the offsetting statutory protection of licensing. This document and its appendices constitute the "Regulations Governing the Licensure of Child Care Facilities."
2. A child care facility may exceed the minimum quality standards required in these regulations, but may not operate without meeting the minimum standards set forth in these regulations.
3. The maximum capacity of a child care facility is determined by the indoor square footage, kitchen square footage, outdoor playground area, and the number of toilets, urinals, and hand washing lavatories, with the lowest capacity determination being controlling.
4. A child care facility may be remeasured and reinspected anytime at the discretion of the licensing agency.

100.03 **Severability** If any provision of these regulations or the application thereof to any persons or circumstances shall be held invalid, such invalidity shall not affect the provisions or application of these regulations which can be given effect without the invalid provision or application, and to this end the provisions of these regulations are declared to be severable.

 - d. The staff-to-child ratio shall be maintained at all times.

- e. It is the child care facility operator's responsibility to provide adequate certified lifeguards if the pool or lake operator does not.
 - f. Each child will be tested by a certified lifeguard prior to participating in swimming lessons or any pool activities. Children will be assigned to swim groups according to the results of the test.
 - g. Staff, as well as lifeguards, shall be responsible for enforcing general safety rules.
 - h. Staff is responsible for requiring children to obey all swimming/water rules. These rules shall be explained each day that swimming/water activities occur so that all ages can understand what is expected.

The entire length of the top surface of diving boards shall be covered with nonskid material. The diving board shall be level. All diving boards shall be installed in accordance with manufacturer's guidelines for the board by professional swimming pool installers who shall certify in writing to the facility that the diving board is adequately installed in accordance with manufacturer's guidelines for the board, in a commercially reasonable manner, located so as to allow a child to safely enter the water from the diving board, and that the diving board is safe for its intended use. Facilities with existing pools equipped with diving boards that are unable to obtain the required certification within sixty (60)

days of the adoption of this regulation shall have the diving boards removed.

5. Swimming pools, when in use, shall be continuously disinfected by a chemical which imparts an easily measured free available residual effect. When chlorine is used, a free chlorine residual of at least 0.4 ppm shall be maintained throughout the pool whenever it is open or in use. If other halogens are used, residuals of equivalent disinfecting strength shall be maintained.
6. A testing kit for measuring the concentration of the disinfectant, accurate within 0.1 ppm, shall be provided at each swimming pool.

The free available residual chlorine, of at least the following concentrations, depending upon the pH of the water, shall be maintained:

123.03 **Facility Policy and Procedures**

1. Parents shall be provided a written statement of policies pertaining to emergency situations, meals, snacks, procedures for releasing a child to parent, and any other information regarding hourly child care facility operation. All policies and procedures will be submitted to the licensing agency and reviewed prior to a license being issued. Written guidelines will be provided to applicants as part of the application packet.
2. The care of a child shall be no more than eight (8) hours per stay and shall not exceed a total of 45 hours in any calendar month period.

123.06 **Health Records** Sample forms for duplication will be provided to operators to ensure adequate health information is taken on the children served. Only forms that substantially comply with the aforementioned sample forms will be acceptable. Registration forms will include a signed statement which will serve as verification that a child has received all age-appropriate immunizations. Other information to be included on the form will be the home or forwarding telephone numbers and addresses to be used when the parent must be informed of situations or conditions after the child is no longer at the hourly child care facility.

123.07 Program of Activities Hourly child care facility programs are exempt from the requirement that a planned written program of activities be submitted as part of the licensing process. However, the facility shall provide adequate space and equipment to allow children to choose between quiet and active play.

Appropriate toys and books for quiet play shall be maintained in a physically separate area that is a sufficient distance from active play to reduce noise and to assure a quiet, relaxed environment.

123.08 Buildings and Grounds

1. A certificate of inspection and approval by the fire department of the municipality or other political subdivision in which the child care facility is located shall be submitted to the licensing agency with the application and license fee. Except that if no fire department exists where the facility is located, the State Fire Marshall shall certify as to the inspection for safety from fire hazards.

The inspection form to be used for fire inspections shall be MSDH Form #333 and shall be signed by a signatory authority of the fire inspection authority making the inspection.

2. In non-land-based facilities only ground level space with exits directly to the outside will be approved.
3. A written emergency evacuation route shall be posted in a conspicuous location within each room used by children. The plan will be subject to review, evaluation, and approval by the licensing agency.

However, in the absence of adequate outdoor playground area, not less than 25 percent nor more than 50 percent of the space allocated for children three (3) to 13 years of age shall be set aside and dedicated to large muscle development activities. Such areas shall contain appropriate play equipment for large muscle development. Such equipment may include but is not limited to indoor gyms specifically designed and approved for children in the three (3) to 13 years of age group. Final approval of the appropriateness of the equipment to be located in the designated area shall be made by the licensing agency.
5. If outdoor playground space is provided, but inadequate for the maximum capacity of the building, a schedule shall be provided to show how outdoor play time will be made available to all the children. At no time will there be more children on the playground than the maximum number allowed computed at 70 square feet per child. Maximum outdoor playground area capacity shall be posted and adhered to at all times the area is in use.

6. When kitchens are not on-site, the hourly child care facility is required to maintain adequate storage and refrigeration for snacks. Also, food shall be served in disposable containers unless an acceptable method of dishwashing is available (Appendix "E"). All food served shall come from a permitted kitchen or catering facility. Food service shall comply with the standard set in the current 10.0 Regulation Food Code as published by the Mississippi Department of Health.

123.10 Abuse and Neglect Reports

1. All employees will be informed by the hourly child care facility director of the individual's responsibility in reporting suspected abuse and neglect. Copies of the child abuse law shall be provided to each employee (Appendix "A").
2. Reports of suspected child abuse or neglect will be made to the Mississippi Department of Human Services and/or local law enforcement officials in accordance with state law. Because abused or neglected children requiring immediate attention are often identified after traditional business hours of the Mississippi Department of Human Services, reports of this nature shall also be made to local law enforcement.

3. Hourly child care facility operators and/or directors are encouraged to establish a working relationship with local law enforcement authorities and the Mississippi Department of Human Services. In extreme situations where local county Department of Human Services staff cannot be reached, operators and/or directors will report to the statewide 24-hour Child Abuse Hotline at 1-800-222-8000.
4. Operators and/or directors will work in conjunction with the local law enforcement and the Mississippi Department of Human Services to establish a workable procedure for reporting cases when a child has been left at the hourly child care facility for an extended period of time after business hours or when allowing a child to leave the hourly child care facility will place that child at risk or in potential danger.

124 **HEARINGS, EMERGENCY SUSPENSIONS, LEGAL ACTIONS AND PENALTIES**

124.01 **Emergency Suspensions of License**

1. Any license issued pursuant to these regulations may be suspended prior to a hearing if the licensing agency has reasonable cause to believe that the operation of the child care facility constitutes a substantial hazard to the health or safety of the children cared for by the child care facility.
2. Whenever a license is to be suspended, the operator or director shall be notified in writing that the license, upon service of the notice, is immediately suspended. The notice shall contain the reason for the emergency suspension, and shall set a date for a hearing, which shall be within 14 days of the service of notice.

124.02 **Denial, Revocation, or Suspension of License** The licensing agency may deny, refuse to renew, suspend, revoke, or restrict a license of any child care facility upon one (1) or more of the following grounds:

1. Fraud, misrepresentation, or concealment of a material fact by the operator in securing the issuance or renewal of a license;
2. Conviction of an operator of any crime, if the licensing agency finds that the acts of which the operator has been convicted could have a detrimental effect on the children cared for by the child care facility;
3. Violation of any of the provisions of the act or of these rules and regulations;
4. Any conduct, or failure to act, which is determined by the licensing agency to threaten the health or safety of a child;

5. Failure by the child care facility to have all criminal records and child abuse central registry checks on file at the facility; and/or
6. Information received by the licensing authority as a result of the criminal records check (fingerprinting) or the child abuse central registry check on an operator.

124.03 Notification

1. Prior to the denial, refusal to renew, suspension, revocation or restriction of a license, and at the time of the imposition of any fine, written notice of the contemplated action shall be given to the applicant or person named on the license of the child care facility, at the address on record with the licensing agency. Such notice shall specify the reasons for the proposed action and shall notify the operator of the right to a district level hearing on the matter.
2. Where the contemplated action is the revocation of a license, and when the proposed revocation is based on Section 25-2 (C) or (D) and involves physical harm or injury to a child, no district level hearing will be provided. In such cases, the licensee will be notified of his opportunity for a state level hearing.

124.04 District Level Hearing

1. If requested in writing within 10 calendar days of receipt of said notice, a hearing shall be provided in which the operator or applicant may show cause why the license should be renewed or should not be denied, suspended, revoked, or restricted, or the fine should not be imposed.
2. Any hearing requested pursuant to Section 25-4(A) shall be held no less than five (5) calendar days and no more than 20 calendar days from the receipt of any request for a hearing, unless an alternate time frame is agreed to by both parties.
3. The district level hearing shall be informal. However, the hearing officer must keep a record of the proceedings and provide the licensee with a written order outlining his decision within 10 calendar days of conclusion of the district level hearing.
4. Within 10 calendar days of the receipt of the district level decision the licensee may make a written request for a new hearing at the state level.

124.05 State Level Hearing

1. At the state level, a hearing officer, appointed by the State Health Officer, shall conduct a hearing to be scheduled within 30 calendar days of receipt of the request for such hearing.
2. Within 30 calendar days of the hearing, or such time frame as determined during the hearing, written findings of fact, together with a recommendation for action, shall be forwarded to the State Health Officer. The State Health Officer shall decide what, if any, action is to be taken on the recommendation within 14 calendar days of receipt of the recommendation. Written notice of the decision of the State Health Officer shall be provided to the operator.

124.06 Appeal Any operator who disagrees with or is aggrieved by a decision of the licensing agency in regard to the suspension, revocation, or restriction of a license may appeal to the Chancery Court of the county in which the child care facility is located. The appeal shall be filed no later than 30 calendar days after the operator receives written notice of the final administrative action by the licensing agency as to the suspension, revocation, or restriction of the license. The operator shall have the burden of proving that the decision of the licensing agency was not in accordance with applicable law and these regulations.

If a facility is allowed to continue to operate during the appeal process, it will remain under the regulation of the licensing agency and will be subject to all current licensure regulations to include, but not limited to, inspection of the facility, review of facility and children(s) records, submission of all required or requested documents, and payment of all applicable fees and/or fines.
